## DETAILED ACTION

### *Election/Restriction*

1. Pursuant to 35 U.S.C. 121 and 37 C.F.R. 1.141, (1) the antisense sequences listed in claims 13-15 are subject to restriction, and (2) the target gene sequences listed in claims 2-5 and 33 are subject to restriction. As per M.P.E.P. 2434, "the Commissioner has partially waived the requirements of 37 C.F.R. 1.141 and will permit a reasonable number of such nucleotide sequences to be claimed in a single application. Under this policy, in most cases, up to 10 independent and distinct nucleotide sequences will be examined in a single application without restriction. Those sequences which are patentably indistinct from the sequences selected by the applicant will also be examined."

(1) Claim 13 specifically claims SEQ ID NOS: 98, 107, 109, and 111. Claim 14 specifically claims SEQ ID NO:98. Claim 15 specifically claims SEQ ID NO:111. Each of these oligonucleotide sequences is considered to be structurally independent and distinct even though they each target the same gene, because each of these oligonucleotides has a unique nucleotide sequence and each targets a different and specific region of the gene.

(2) Claim 2 states that the aldehyde dehydrogenase gene is ALDH2. Claim 4 states that the ALDH2 is the ALDH2-1 allele. Claim 5 states that the ALDH2, human sequence, is either SEQ ID NO:108 or 110. Claim 33 is drawn to expression of an ALDH2-2 allele. Each ALDH2 is considered to be structurally independent and distinct since they are different gene sequences

and require a different search. Thus applicant is required to choose either the ALDH2-1 or ALDH2-2 allele, and if the ALDH2-1 is chosen, either SEQ ID NO:108 or 110 must be elected for consideration on the merits.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).
